

Quick Start Guide

Netscape Communicator: Guidelines for email account setup

Website: Netscape Communicator - <http://browser.netscape.com/ns8/>

License: Freeware

Download: Netscape - <http://browser.netscape.com/ns8/>

Sample Configuration parameter:

Identity:

Your Name: Name Surname

Email address: user:your-domain.com*

Server Information:

Incoming (POP3) mail server: pop.your-domain.com

Outgoing (SMTP) server: smtp.your-isp.com

Account Name: user:your-domain.com*

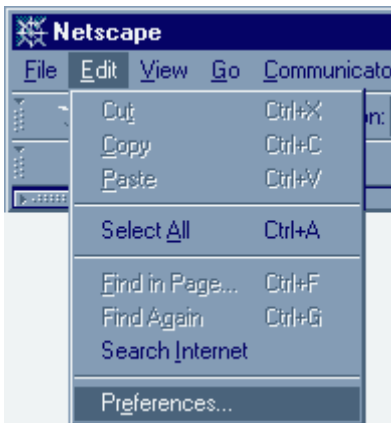

Password: mailbox password

(where 'your-domain.com' is the name of your registered domain with Hetzner)

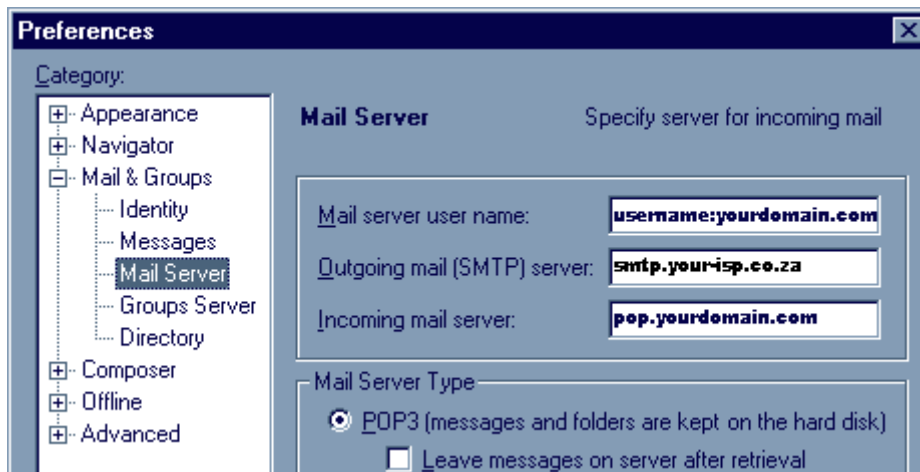

*Please note the ':' (colon) as opposed to the more common @ separator

Guidelines for new email account setup:

1. Select Preferences from the 'Edit' pull-down menu

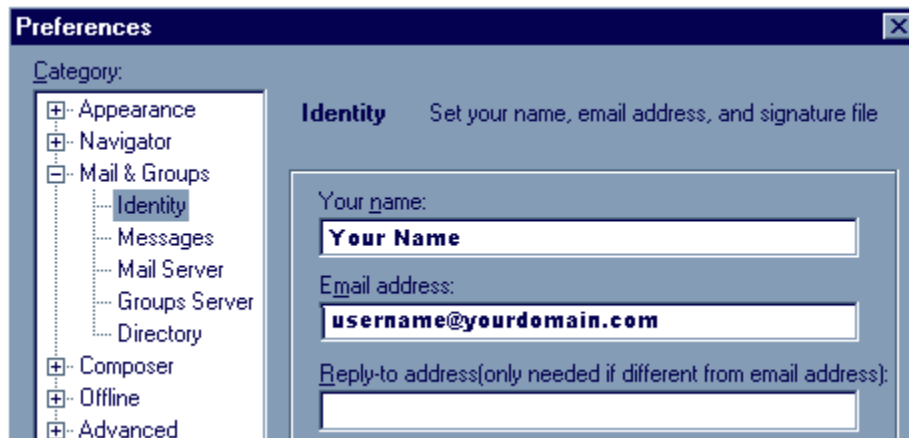

2. Select 'Mail & Groups'; Click on 'Mail Server'
3. Enter Mail Server User Name as: user:yourdomain.com
4. Enter Outgoing Mail Server
5. Enter Incoming Mail Server

Quick Start Guide

Netscape Communicator: Guidelines for email account setup

6. Select 'Identity' in left column
7. Enter your Name
